

Dear Judge Robinson

Today is 4-22-06 336pm on the same day that this other letter was written, well Lt Patrice changed his mind and gave me a 24 instead, but he said that I was in possession of non dangerous contraband, witch he was in his rights to charge me with that but he also gave me a, telling to Obey an order, he never gave me a order, he's just trying to cover his self.

And that doesn't justify him treating up a snach that I got twice a day for Sugar problems.

Same day 521pm I was denied Religious Services. Due to this 24, witch is a violation of my rights as well. Also I'm sitting here with a \$237.00 TV with no sound because he took my head Phones, and didn't give me a recipie, so you my as well say he stole them ~~you stole~~ from me.

At this time I have about 20 witnesses that will be out of here by the time this goes to court that would testify that this look way to suspicious to be a guenbadewi

Sincerely Yours
 My V. Linn

PS will be sending you 285 forms on there two people when I can get postage
